09 **Анатомия человека: Учебное пособие для студентов медицин-
ских вузов (на англ. яз.): (Textbook of human anatomy: For medi-
cal students). В двух книгах. Кн. 1 /Под ред. М.Р. Сапина. — 2-е изд.
М.: РИА «Новая волна», 2017. — 416с.: ил.**

ISBN 978-5-7864-0210-1

В пособии изложен курс анатомии человека, необходимый для последую-
щего изучения медико-биологических и клинических дисциплин. Учебный ма-
териал изложен логично, компактно, на современном научном уровне и хоро-
шо иллюстрирован. Объем и глубина изложения материала соответствует уров-
ню подготовки, необходимому для студентов медицинских вузов.

Для студентов медицинских вузов, аспирантов, врачей.

CONTENTS

Preface.....	
Introduction	
Planes and axes. General anatomical terms ...	

THE STRUCTURE OF THE HUMAN BODY

Cells and tissues.....	
Cells.....	
Transport of substances and membranes in the cell.....	15
The nucleus.....	
Cell division. The cell cycle.....	16
Tissues.....	21
Epithelial tissue.....	22
Connective tissue.....	30
The Blood.....	36
Skeletal tissues.....	39
Cartilage.....	39
Bone tissue.....	41
Muscle tissue.....	43
Nervous tissue.....	47

MAIN STAGES OF DEVELOPMENT IN ONTOGENESIS.....	57
--	----

LOCOMOTION APPARATUS.....	67
---------------------------	----

Structure of bones.....	67
Classification of bones	69
Structure and chemical composition of bones	70
Development and growth of bones.....	74
Skeleton of the trunk.....	75
Vertebrae.....	75
Cervical vertebrae.....	76
Thoracic vertebrae.....	78
Lumbar vertebrae.....	79
Sacrum.....	79
Coccyx.....	81
Ribs and sternum.....	81
Sternum.....	82
Main variants and anomalies of bones of the trunk.....	83
The skull.....	83
Bones of the cranial skull.....	84
Canals of the temporal bone.....	93
Bones of the facial skull.....	94
Skull as a whole.....	99
Paranasal sinuses.....	106
Skull of a newborn.....	110
Modifications of the skull after birth.....	112
Sexual characteristics of the skull.....	113
Development of the human skull	113
Variants and anomalies in development of the bones of the skull.....	115
The appendicular skeleton.....	116
Bones of the upper extremities.....	118
The pectoral girdle.....	118

Skeleton of the free upper extremities	118
Bones of the forearm.....	119
Bones of the hand.....	120
Variants and anomalies of the skeleton of the upper extremities.....	121
Bones of the lower extremities.....	122
Bones of the pelvic girdle.....	123
Skeleton of the free lower extremity.....	125
Bones of the leg.....	126
Bones of the foot.....	127
Variants and anomalies of the skeleton of lower extremities.....	128
JOINTS.....	129
Classification of joints	129
Classification of joints (continuation).....	133
Age characteristics of joints.....	135
Articulations of the bones of the trunk.....	136
Joints of the vertebral column.....	136
Articulations between the vertebral column and skull.....	139
The vertebral column (as a whole).....	141
Articulation of ribs with the vertebral column	142
Articulation of the ribs with the sternum.....	143
The thorax (as a whole).....	144
Articulations of the bones of the skull.....	146
Articulations of the upper extremities.....	148
Articulations of the pectoral girdle.....	148
Articulations of the free upper extremity.....	149
Articulations of the forearm and hand.....	152
Movement in joints of the hand.....	156
Articulations of the lower extremities.....	159
Articulations of the pelvic girdle.....	159
The pelvis (as a whole).....	161
Articulations of the free lower extremity.....	163
Articulations of the bones of the leg.....	167
Articulations of the bones of the foot.....	168
The foot as a whole.....	174
THE MUSCULAR SYSTEM.....	175
Structure of the skeletal muscles	176
Classification of muscles.....	177
The auxiliary apparatus of muscles.....	178
Work of muscles.....	180
Development of muscles.....	184
Muscles and fasciae of the back.....	185
Superficial muscles of the back.....	185
Deep muscles of the back.....	188
Fasciae of the back.....	195
Topographic anatomy and fatty tissue spaces of the back.....	195
Muscles and fasciae of the thorax.....	199
Proper muscles of the thorax.....	203
Fasciae of the thorax.....T.....	207
Topographic anatomy and fatty tissue spaces of the torax.....	207
Muscles and fasciae of the abdomen.....	209
Muscles of the posterior abdominal wall.....	211

Fasciae of the abdominal region	213
Topographic anatomy and fatty tissue spaces of the abdominal	
walls.....	213
Linea alba of the abdomen.....	214
The rectus sheath.....	215
The inguinal canal	217
Muscles and fasciae of the head.....	217
Muscles of fasial expression.....	217
Muscles of the roof of the skull.....	218
Muscles of the eyelid and the orbit.....	219
Muscles of the nose.....	220
Muscles of the mouth.....	221
Muscles of the auricular concha.....	222
Masticatory muscles.....	224
Fasciae of the head.....	226
Topographic anatomy and fatty tissue spaces of the head.....	227
Muscles and fasciae of the neck.....	229
Superficial muscles of the neck.....	229
Muscles situated above the hyoid bone.....	230
Muscles situated below the hyoid bone.....	232
Deep muscles of the neck.....	233
Topographic anatomy and fatty tissue spaces of the neck.....	236
Triangles of the neck.....	238
Muscles and fasciae of the upper extremity.....	241
Muscles of the shoulder girdle.....	241
Muscles of the free upper extremity.....	244
Anterior muscles of the arm.....	244
Posterior muscles of the arm	245
Anterior muscles of the forearm.....	246
First (superficial) layer of the anterior muscles	
of the forearm.....	246
Second layer of the anterior muscles of the forearm.....	248
Third layer of anterior muscles of the forearm	248
Fourth (deep) layer of the anterior muscles of the forearm.....	249
Posterior muscles of the forearm.....	249
Superficial layer of the posterior muscles of the forearm.....	249
Deep layer of the posterior muscles of the forearm.....	251
Muscles of the hand.....	252
Muscles of the thenar eminence.....	254
Muscles of the hypothenar.....	255
Middle group of the muscles of the hand.....	256
Fasciae and synovial bursae of the upper extremity.....	261
Topographic anatomy and fatty tissue spaces of the upper	
extremity	264
Muscles and fasciae of the lower extremity.....	268
Muscles of the pelvic girdle (muscles of the pelvis).....	268
Internal muscles of the pelvic girdle.....	269
External muscles of the pelvic girdle	271
Muscles of the free lower extremity.....	274
Anterior muscles of the thigh.....	274
Posterior muscles of the thigh.....	275
Medial muscles of the thigh.....	276
Muscles of the leg.....	277
Anterior muscles of the leg.....	278

<i>Lateral</i> muscles of the leu	279
Posterior muscles of the leg.....	279
Superficial layer.....	279
Deep layer of the posterior group of the leg muscles.....	280
Muscles of the foot.....	281
Dorsal muscles of the foot.....	281
Medial group of the muscles of the sole.....	283
Lateral group of muscles of the sole.....	283
Middle group of the muscles of the sole.....	285
Fasciae, synovial bursae and sheaths of the lower extremity.....	291
Topographic anatomy and fatty tissue spaces of the lower	
extremity.....	294
Variants and anomalies of the skeletal muscles.....	298
Muscles of the trunk.....	298
Muscles of the chest.....	299
Muscles of abdomen.....	299
Muscles of facial expression.....	311
Muscles of mastication.....	3(X)
Muscles of the neck.....	301
Muscles of the upper extremity.....	302
Muscles of the lower extremities.....	304
SPLANCHNOLOGY (THE STUDY OF INTERNAL ORGANS).....	306
Topographic orientation points of internal organs.....	310
The digestive system.....	311
The oral cavity.....	313
Palate.....	313
Teeth.....	315
Tongue.....	317
Salivary glands	321
Pharynx.....	325
Oesophagus.....	330
Stomach.....	332
Small intestine.....	339
Duodenum.....	339
Jejunum and Ileum.....	340
Large intestine	344
Liver.....	351
Biliary system.....	356
Gallbladder.....	357
Pancreas.....	358
Peritoneum.....	362
Development of the digestive system.....	371
Age characteristics of the digestive system organs.....	374
Variants and anomalies of the digestive organs.....	377
The respiratory system.....	381
Nose.....	382
Nasal cavity.....	383
Larynx.....	384
Trachea.....	393
Main bronchi..... *	395
Lungs.....	396
Pleura	403
Mediastinum.....	405
Development of the respiratory system.....	407
